|| Our Story

Entice Automation provides you with an experience that augments your life, removing monotony from everyday activities and bringing you into the future.

With over 15 years of combined experience in the Automation Industry, we remain at the forefront of technology innovation. Our team of IT Specialists, Integration Engineers and Automation Technicians are inspired to push the boundaries of home automation. The enthusiastic, diverse and knowledgeable team makes Entice Automation your 'one stop shop' for your smart home. Our comprehensive services cater for all automation solutions from the initial consultation, to training and development and everything in between.

Our team are dedicated to delivering the best service and technology. We are backed by industry leading brands such as Sonos, RTI, and Philips, allowing us to execute our services with the highest attention to detail with faith in the quality products we provide.

We understand our clients want a solution that is simple and easy to use, creating a total custom experience that helps you live smart. Whether it be your home, workplace or a development project, we take pride in creating elegant solutions for a seamless control experience.

YOUR WORLD AT YOUR FINGERTIPS

YOUR WORLD AT YOUR FINGERTIPS

From a few lights to an entire home, controlling multiple technologies from a central system has never been easier

II Home Automation

Entertaining, relaxing and adjusting just became effortless, as our team takes the time out of controlling your home so you can focus on what matters in a more luxurious, secure and effortless way. If you're building or renovating your home, consolidating your lifestyle technologies and integrating them to work together will make your home more liveable and save time you never thought imaginable.

II Commercial Automation

Whatever the size or type of space, we can provide streamlined solutions to make your venue more efficient whilst cutting the large energy bills, taking the stress out of your life. Lighting and Media control for showrooms, offices or warehouses; dynamic, energy saving lighting systems for shopping centres; sophisticated boardrooms to eliminate stress; specialist audio systems for your restaurant or bar. Across these sectors and more, we provide solutions that are customer centric and incorporate innovative technologies.

III Home Theatre & Audiovisual Automation

Too many remotes or sources? Simplify your setup with a single remote and app to control it all and bring the cinemas home to you. Entice Automation can create a home theatre space where you can unwind, relax, kick your feet up and enjoy the experience. From hidden surround speakers, to high quality displays and projectors, we can design a theatre solution for your home just the way you want it.

MAKING SMART HOMES SIMPLE

Home automation networks allow you to effortlessly control all the home electronic devices you depend on from one central hub. With our advice and planning, you too can enjoy the benefits of an intuitive smart home.

Lighting

We understand how light can affect people and use the finest products to design your custom solution that you can adjust to suit your mood and the occasion.

Video

Our automation system can minimise the number of sources in your house and make complex TV set-ups simple.

Audio

With entice automation audio solutions, entertainment is always in reach. Smart control of speakers and zones allows for integration of music into a single app to anywhere in your home.

Security

Rest easy knowing your home is completely secure. From access control to surveillance, we can provide a security solution for homes of all sizes.

Climate Control

A smart automation solution can co-ordinate your blinds and integrated air-conditioning system, taking the heavy lifting of your air-con and reducing your power bill without even lifting a finger.

Networking & Wi-Fi

Internet is now an essential service for any home. Like plumbing and electrical, consideration must be given to how you use your home now, and make allowances for future use.
